Independent Auditors' Review Report

To the Board of Directors of Inventec Besta Co., Ltd.:

Introduction

We have reviewed the accompanying consolidated balance sheets of Inventec Besta Co., Ltd. and its subsidiaries as of June 30, 2023 and 2022, and the related consolidated statements of comprehensive income for the three and the six months ended June 30, 2023 and 2022, as well as changes in equity and cash flows for the six months ended June 30, 2023 and 2022, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards ("IASs") 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our review.

Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4(b), the consolidated financial statements included the financial statements of certain non-significant subsidiaries, which were not reviewed by independent auditors. These financial statements reflect total assets amounting to $20,103 thousand and $20,963 thousand, constituting 2.57% and 2.47% of consolidated total assets as of June 30, 2023 and 2022, respectively, total liabilities amounting to $3,764 thousand and $6,175 thousand, constituting 1.64% and 2.82% of consolidated total liabilities as of June 30, 2023 and 2022, respectively; and total comprehensive income (loss) amounting to $748 thousand, $(2,774) thousand, $1,741 thousand and $(1,014) thousand, constituting (3.62)%, 12.62%, (4.30)% and 2.52% of consolidated total comprehensive income (loss) for the three and the six months ended June 30, 2023 and 2022, respectively.

Qualified Conclusion

Except for the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent auditors, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of Inventec Besta Co., Ltd. and its subsidiaries as of June 30, 2023 and 2022, and of its consolidated financial performance and its consolidated cash flows for the three and the six months ended June 30, 2023 and 2022 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IASs 34, "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the reviews resulting in this independent auditors' review report are Shu-Ling Lien and Rou-Lan Kuo.

A 0.5% depreciation or appreciation of the NTD against the USD and CNY as of June 30, 2023 and 2022, and assumes all other variables factors that remain constant, would have increased or decreased the net loss after tax for the six months ended June 30, 2023 and 2022 by $544 and $520, respectively. b) Valuation techniques for financial instruments measured at fair value

b-1) Non-derivative financial instruments

The fair value of financial instruments is evaluated by using the valuation technique or prices of financial instruments of comparable peers that are publicly traded. The fair value acquired through valuation technique may refer to other financial instruments with substantially similar conditions and characteristics, discounted cash flow analysis or other valuation technique, including the market information can be obtained on the consolidated balance sheet date and calculated using the model.

The stocks, drafts and bonds of listed companies are financial assets and liabilities with standard terms and conditions which are traded in the active markets. Their fair values are based on the quoted market prices.

For equity instruments that have no quoted prices, the comparable listed companies' method is used to estimate their fair values. The main assumption for the model is the earnings before interests, taxes, depreciation and amortization, and the earnings multiplier derived from comparable listed companies. The estimate has adjusted the impact of the lack of market liquidity of the equity securities.

Fair value is a quoted price in an active market if the markets for financial instruments have quoted price. The fair values of equity instrument listed companies and debt instruments quoted price in active market are based on published price in the mainly active securities exchange and Central Government Bonds (CGBs) in the OTC market.

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid-ask spreads is an indication of non-active market.

Financial assets at fair value through other comprehensive income - equity securities without an active market	Comparable listed companies' method	·Multiplier of price-to-book ratio (As of June 30, 2023, December 31, 2022 and June 30, 2022 were 2.99~5.03、2.84~4.36 and 3.51~5.21) ·Market illiquidity discount (As of June 30, 2023, December 31, 2022 and June 30, 2022 were all 15%~20%)	·The higher the PB, the higher the fair value. ·The higher the illiquidity discount rate, the lower the fair value.

e) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The Company's fair value measurement on financial instruments is reasonable. The measurement would differ if different valuation models or valuation parameters are used. For financial instruments using level 3 inputs, if the valuation parameters are changed, the impact on net income or loss and other comprehensive income or loss were as follows:

Equity securities without an active market	Market illiquidity discount	5%	328	(328)
			$ 589	**(589)**
